

Makrolon® GP

Solid polycarbonate sheet

Your benefits:

- extreme impact strength
- resistance to a wide range of temperatures
- good fire rating

Solid **Makrolon®** sheets are clear, polished, UV-stabilized polycarbonate sheets. They offer extreme impact strength that exceeds the physical properties of other products of their class.

Makrolon® sheets resist temperatures of -100 to +120 °C, exhibit high optical clarity and have a good fire rating.

Makrolon® GP clear 099 is a clear transparent sheet with high light transmission.

Makrolon® NR clear 099 is a transparent sheet with a matt finish and improved UV resistance on one side.

Makrolon® GP white 130 and **white 150** are translucent sheets offering good light diffusion combined with a pleasant white color.

Makrolon® GP umbra 775 sheets are brown-colored and transparent.

Makrolon® FR clear 099 is a clear transparent sheet with improved fire classification acc. to UL94.

Makrolon® FG clear 099 is a clear transparent sheet suitable for food-contact and medical applications.

Applications:

Typical applications for **Makrolon® GP** sheets include machine guards, lighting fixtures, signs, wall and door partitions. The sheets offer protection against involuntary breakage and wilful destruction. **Makrolon® GP** sheets can be thermoformed, cold-curved and machined with ease.

(* Fire certificates could be limited in time and scope, always check if the mentioned certificate is valid for the purchased Polycarbonate sheet type at the date of delivery. Polycarbonate sheets may change their fire behavior due to ageing and weathering. The indicated fire rating was tested on new / unweathered Product in accordance with the indicated fire classification standards.
